LINKS

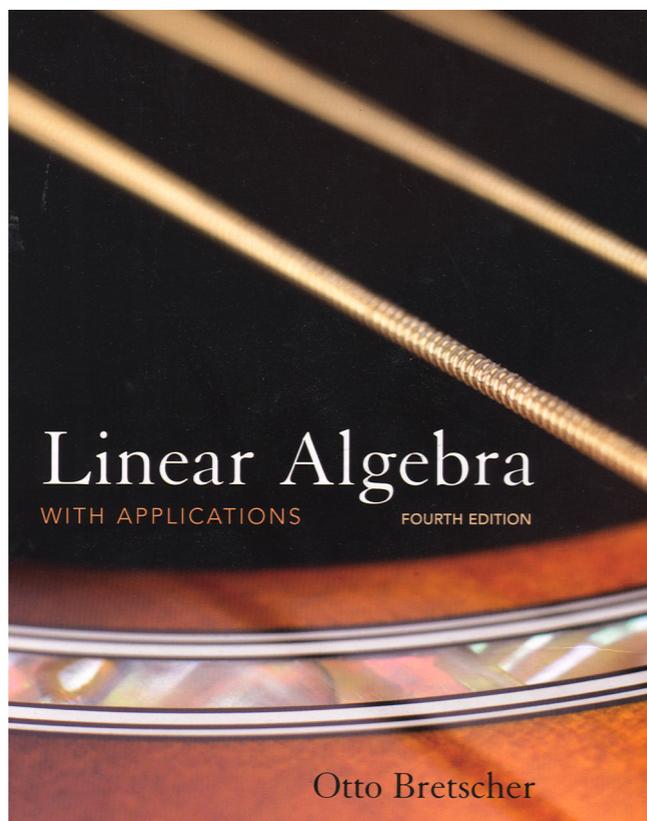

- There is a mandatory intro lecture on Wednesday January 28 at 8:30-9:00 AM in Science Center B.
- Sectioning for this course has started: [more information and advising schedule](#).
- We will use the 4'th edition of Otto Bretscher's book.

5/10

www.courses.fas.harvard.edu/~math21b

TEXTBOOK

Book: **Otto Bretscher**, Linear Algebra with Applications, 4th edition 2009, ISBN-13:978-0-13-600926-9. You need the 4th edition for the homework. Student solution manual optional.

SECTIONS

The course lectures (except reviews and intro meetings) are taught in sections. This assures you can discuss the material in class. Additional problem sessions as in math21a. Sections: MWF 10, MWF 11, MWF 12, TTH 10-11:30, TTH 11:30-13:00. MQC: 309

MATH 21B

SYLLABUS 2009

Linear Algebra and Differential Equations is an introduction to linear algebra, including linear transformations, determinants, eigenvectors, eigenvalues, inner products and linear spaces. As for applications, the course introduces discrete dynamical systems and provides a solid introduction to differential equations, Fourier series as well as some partial differential equations. Other highlights include applications in statistics like Markov chains or data fitting with arbitrary functions.

PREREQUISITES

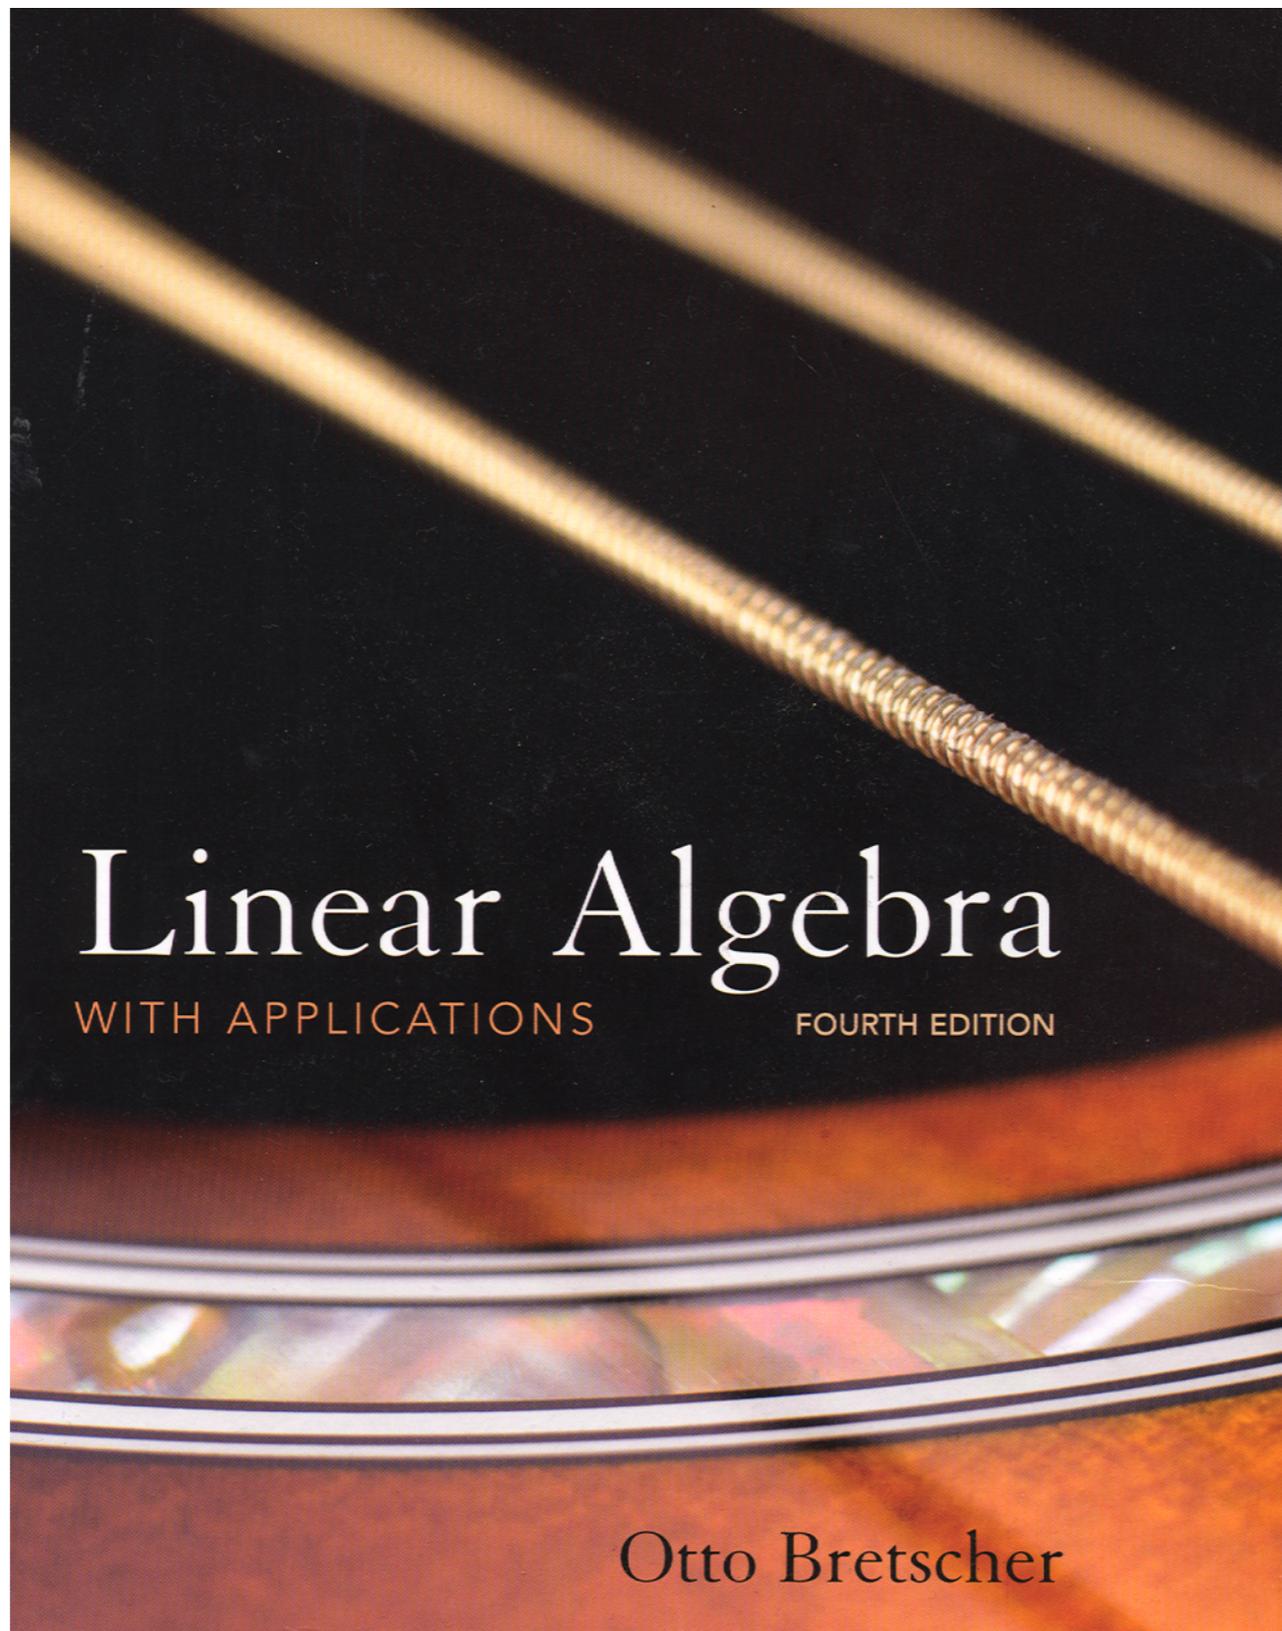

Single variable calculus. Multivariable like 21a is advantage.

LEARN MORE »

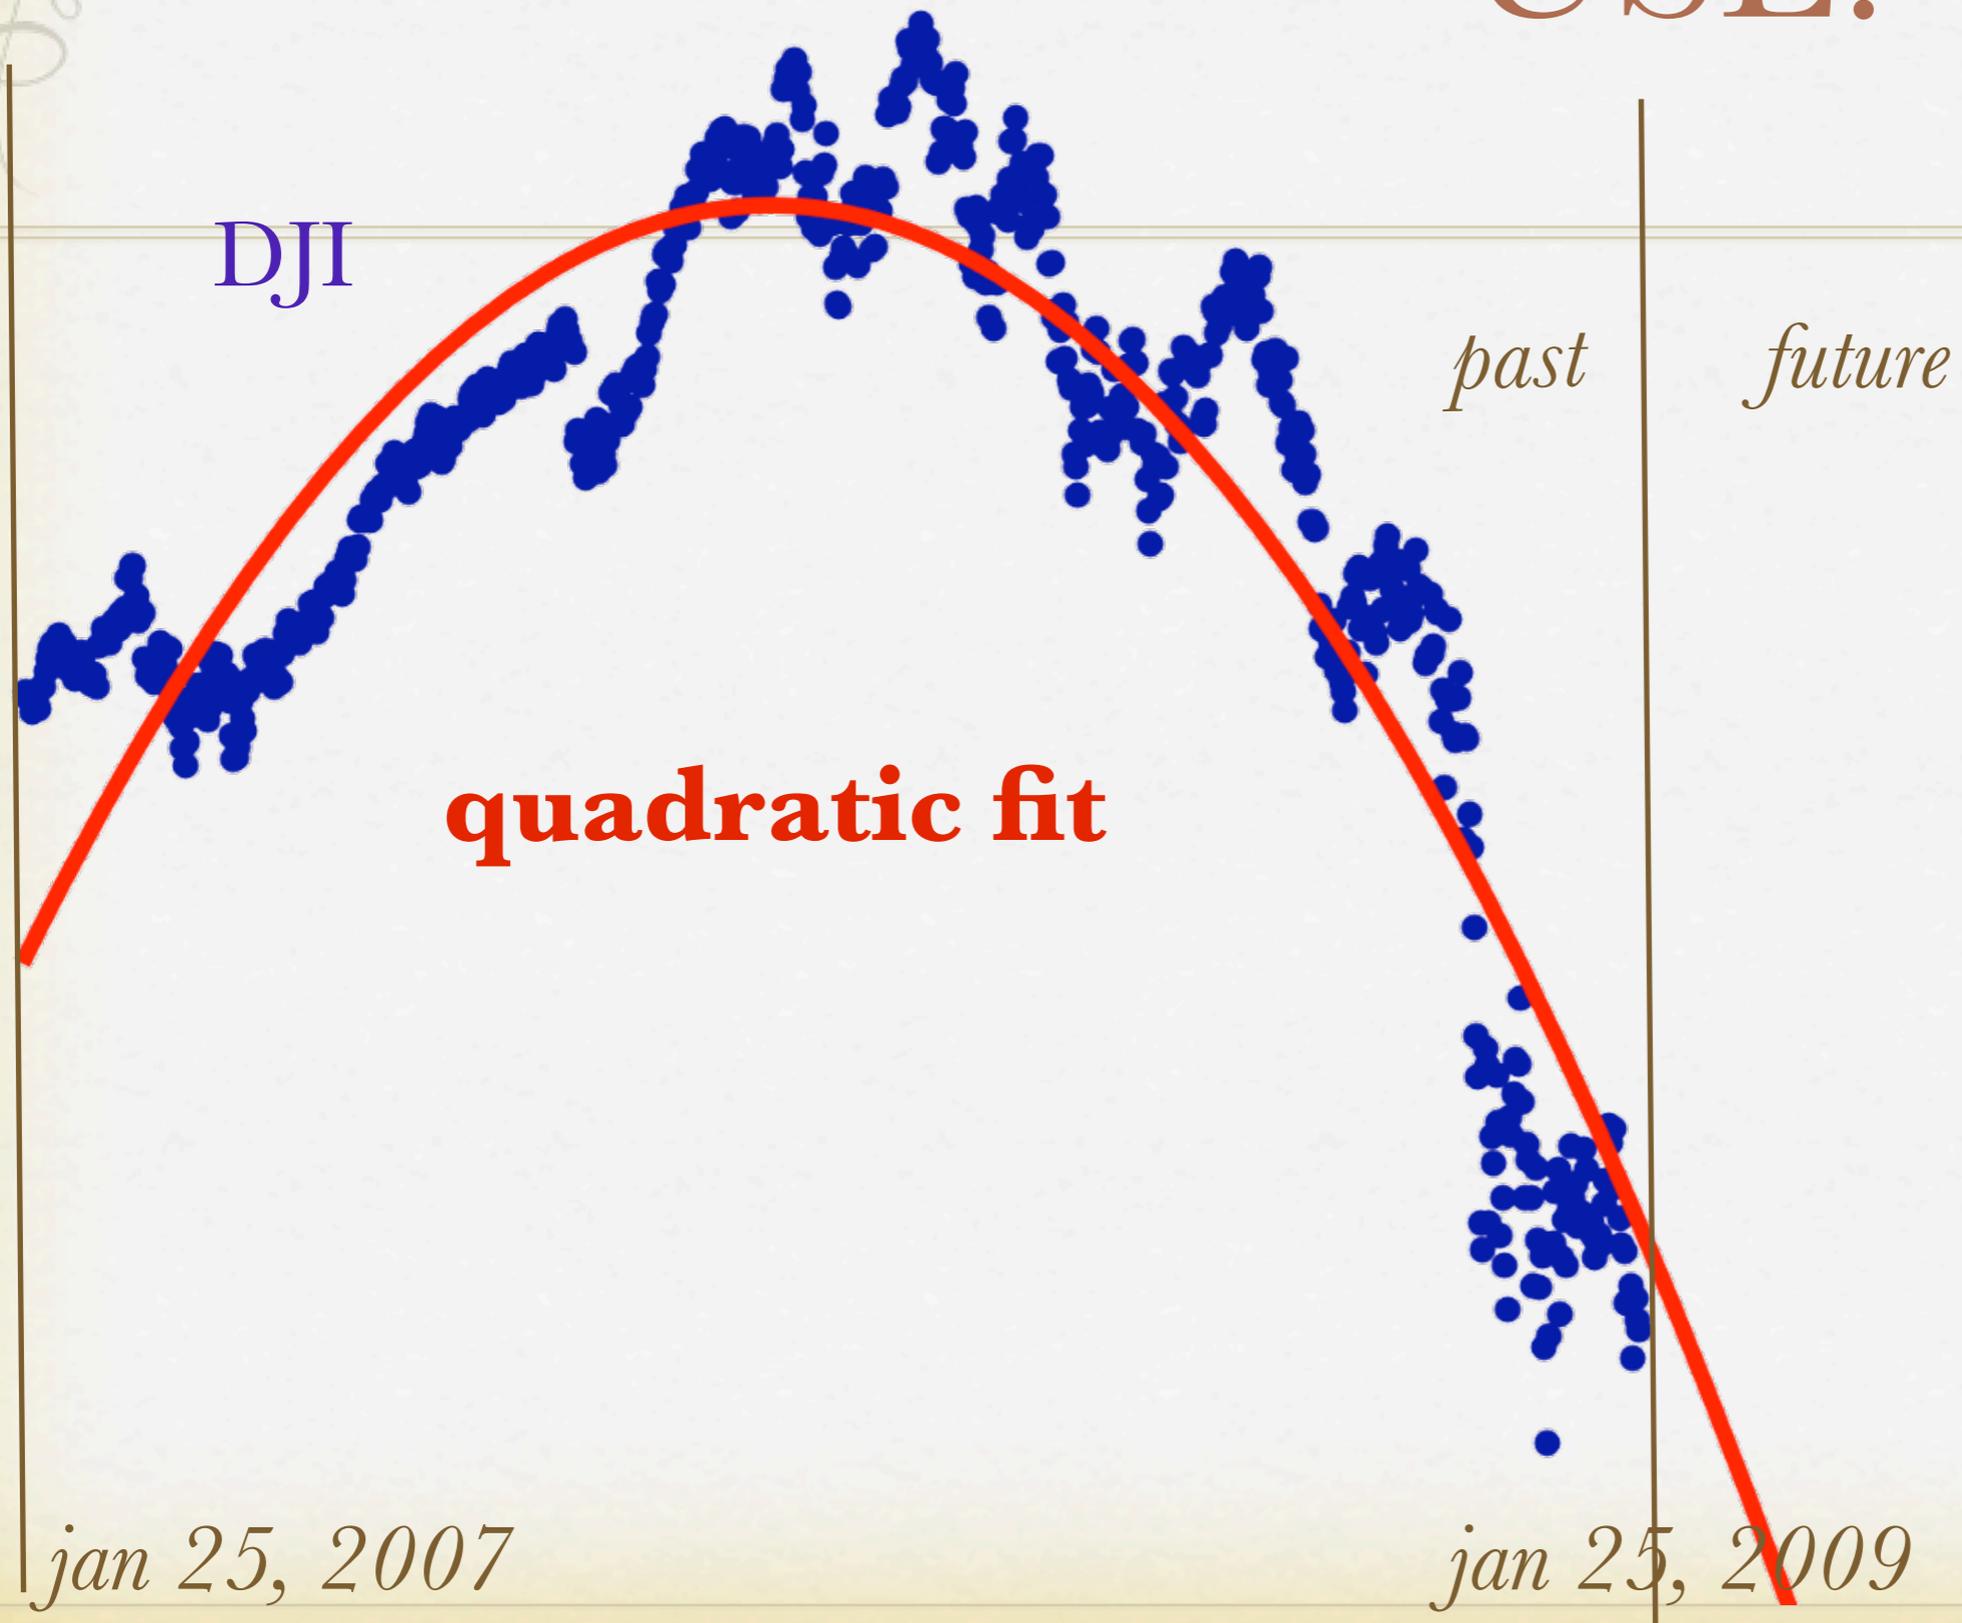

- ❁ Can be done in a few hours
- ❁ Can only improve grades
- ❁ Should be fun

WHY MATH21B?

- ✿ understand the math of data analysis
- ✿ build models in economics
- ✿ use differential equations in biology
- ✿ complete your math background
- ✿ know the 100'000 th term of the Fibonacci sequence
- ✿ learn quantum mechanics later
- ✿ be able to understand abstract structures

USE?

The image shows a Windows desktop environment with a blue background. A Recycle Bin icon is visible in the bottom-left corner. The taskbar at the bottom contains the Start button and an open window titled "ulam.fas.harvard.edu ...".

The main focus is a SecureCRT terminal window titled "ulam.fas.harvard.edu (4) - SecureCRT". The window has a menu bar with "File", "Edit", "View", "Options", "Transfer", "Script", "Tools", "Window", and "Help". Below the menu bar is a toolbar with various icons for file operations and terminal functions. The terminal content area displays the text "Math Department Sectioning Program" at the top. At the bottom of the terminal, there is a prompt: "Please enter the first 8 digits of your Harvard ID number in the form 12345678:". The status bar at the bottom of the terminal window shows "Ready", "ssh2: AES-128", "24, 1", "24 Rows, 80 Cols", and "VT100".

Math Department Sectioning Program

Welcome to the Math Department Sectioning Program. Please confirm that the following information is correct:

 Last name: Milano
 Given name: Susan
 Email address: euler@math.harvard.edu
 Gender: Male
 Year: Senior
 Concentration: Applied Mathematics
 House: Freshman

Is the above information correct? [Y/N]

19B/21B/A21B?

19B/21B/A21B?

- * 19b with statistics
- * 21b with differential equations
- * App21b more engineering

21B / APPLIED 21B

DO WE NEED 21A?

- ✿ No, but it can be helpful
- ✿ We will use partial differentiation
- ✿ Knowing about projections can help?

UNTIL NEXT WEEK

- ✿ Come with an open mind
- ✿ Look over the book
- ✿ Later in the course, we need complex numbers.

THAT'S IT!

THE END

Don't forget to Section!
