

## Sir Isaac Newton

The goal of the presentation is to discuss Isaac Newton. Your presentation should include at least

- A discussion of who Newton was.
- A discussion of his life.
- A discussion of his laws of gravity
- A brief discussion of his discovery of calculus and the controversy with Leibniz

In addition you should include at least one thing not on the above list

At the end of your presentation the class will be asked one of the following questions.

- Where was Newton born?
- What is the binomial theorem?
- How many people did Newton get convicted of high treason (for counterfeiting) in 1698 and 1699?

A good starting point for your research is

[http://en.wikipedia.org/wiki/Isaac\\_Newton](http://en.wikipedia.org/wiki/Isaac_Newton)

If you have any questions regarding the presentation feel free to e-mail your TA or Dr. Ackerman
